If you hear any weird or unusual noises or smell anything weird, immediately disconnect the power line and call the service center.
- It can cause electric shock or fire.

Do not dispose batteries into a fire.
- It can cause an explosion.

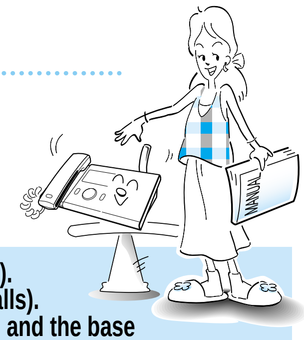

# Overview of Major Features

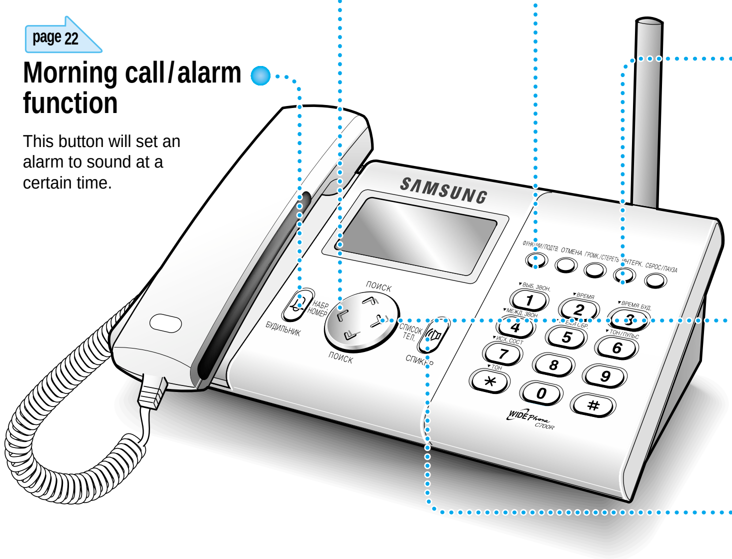

## WIDE 900 MHz Phone

- Here are some instructions concerning various functions of the phone.

Base set : Phone directory (20 phone numbers), recent calls (10 calls).
Remote set : Phone directory (10 phone numbers), recent calls (10 calls).
The phone directory is saved separately from the recent call function and the base set and the remote set are controlled separately.

## Base Set

page 28

### Recent call function

You can easily search and redial the most recent numbers you called without dialing them up again.
(Up to 10 calls)

page 22

### Morning call/alarm function

This button will set an alarm to sound at a certain time.

### Setting function

You can set and manage your own settings for various phone functions.

page 17, 19

### Intercom function

You can easily switch between an internal call (intercom) with the base set and an external call.

page 23~26

### Phone directory search function

This helps you store or search up to 20 phone numbers.

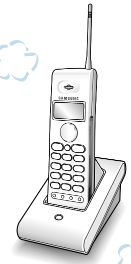

### On Hook Dialing

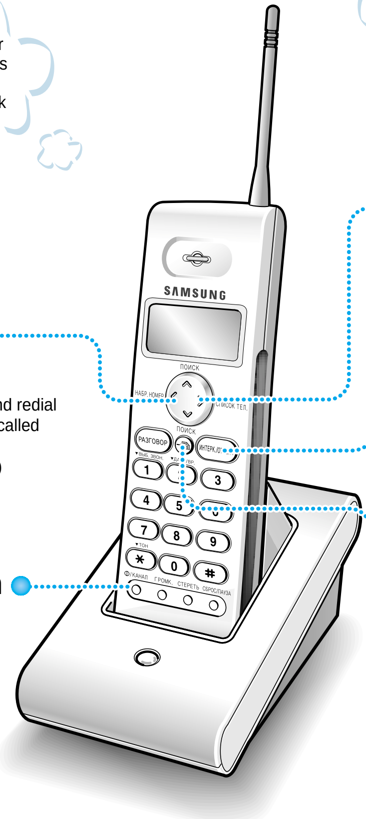

You can make a call without picking up the remote set.

## Remote Set

An illuminated dial pad adds to your convenience. It allows you to dial phone numbers even in dark places.

You can easily carry the remote set when moving around.

page 28

### Recent call function

You can easily search and redial the recent numbers you called without dialing them up again. (Up to 10 calls)

page 31

### Noise reduction function

It will detect a clear channel when the call has a bad connection

page 23~26

### Phone directory search function

This helps you store or search up to 10 phone numbers.

page 17~19

### Intercom function

You can easily switch between an internal call (intercom) with the base set and an external call.

### Setting function

You can manage settings for various phone functions.

# Product Introduction

## Base Set

- Use it for redialing the last number you called.
- Use it for searching or registering numbers in your own phone directory ( up to 20 numbers ).
- Use it to navigate upward when moving and searching through the menu.
- Use it to navigate downward when moving and searching through the menu.

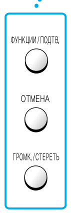

Use it for setting or canceling the morning alarm call.

Use it for dialing numbers without picking up the handset.

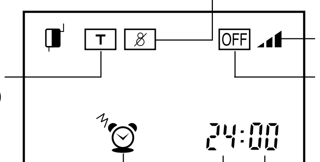

- Use it for setting or canceling the phone's features.
- Use it for confirming the function setting.
- Use it for canceling functions.
- Use if for adjusting the volume of the ring tone or speakerphone.
- Use it for deleting certain phone numbers from the directory, recent calls or saved numbers in searching phone numbers.

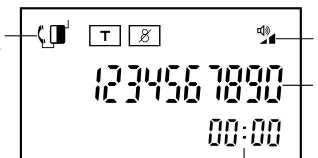

- Use it for either communicating with the remote set or transferring a call to the remote set.
- Use it for making another call without hanging up.

### Standby Screen

### Call Screen

This shows you the duration of the call.

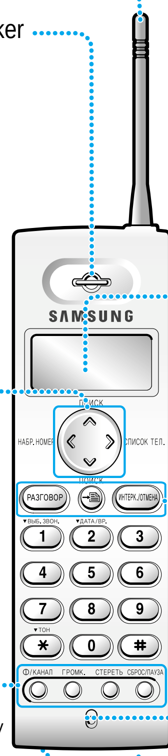

## Remote Set

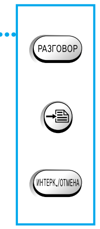

- Use it for redialing the last number you called.
- Use it for searching or registering numbers in your personal phone directory ( up to 10 numbers ).
- Use it for searching the order of the most recent calls
- Use it for changing the function setting ( e.g. bell type, device number ).

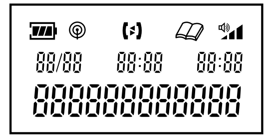

- Use it for turning on/off the power.
- Use it for reducing misconnected calls or noise.
- Use it for adjusting the ring tone or the voice volume.
- Use it for deleting the most recently called numbers or saved numbers in searching phone numbers.
- Use it for making another call without hanging up.

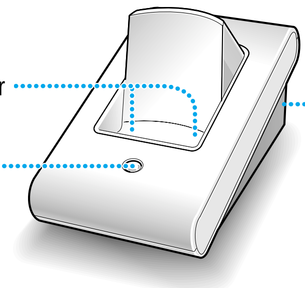

- Use it for calling, answering or hanging up.
- Use it for setting or canceling the phone's features.
- Use it for either communicating with the base set or transferring a call to the base set.
- Use it for canceling a function.

### Screen Displaying

- Battery status
- When out of range from the base set
- When the line is busy with a call ( ) or an extension call ( )
- When searching or registering numbers in your phone directory
- Volume of receiving ring (2 levels)
- Volume of one's voice during a call (3 levels)

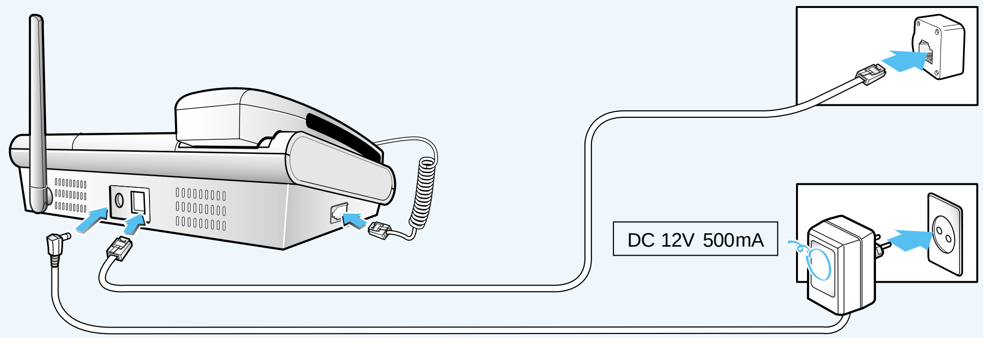

## Charger

# Phone Installation

## Installing the Base Set

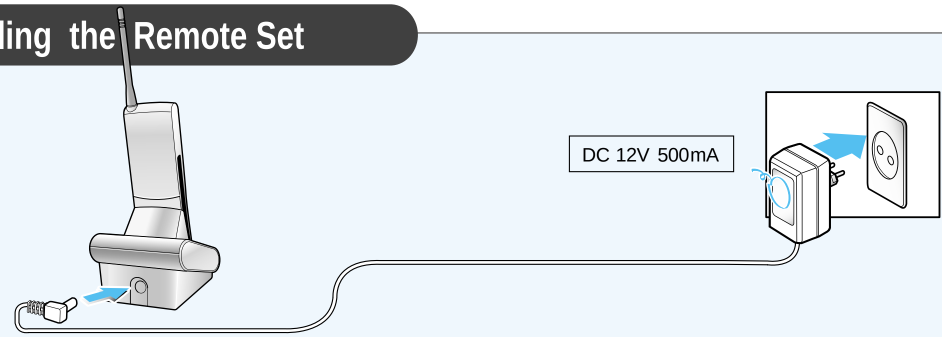

Connect the phone line.

Connect the power plug to 220V.

- When you have finished installing the base set, press "On Hook" button and check for a dial tone.
- If you cannot hear a dial tone, then check both the power and phone line connections.
- This product works for 220V.

## Installing the Remote Set

Connect the power plug to 220V.

- Place the remote set on the charger and check if the lamplight is on.
- Press the call button and check for a dial tone.
- If you cannot hear the tone, check the installation.

### To turn on / off the power

- To turn on the power: Press Ф/КАНАЛ button (hold for more than 2 seconds) until you begin to hear the beeping sound.
- If it does not turn on when you press Ф/КАНАЛ button, then you probably need to recharge the remote set. It should then automatically turn on. Please recharge the battery for 24 hours before using it.
- If you do not charge the battery for at least 6 hours, then in order to protect it, the battery must be fully charged or it will stop operating.
- To turn off the power: Press Ф/КАНАЛ buttons (hold for more than 3 seconds) until you hear the beeping sound.

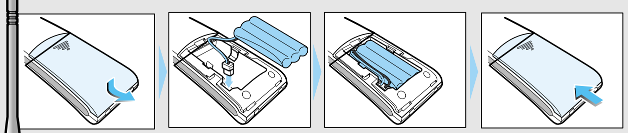

### Loading the battery to the remote set

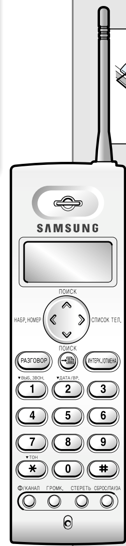

1 Open the battery cover.

2 Place the battery as shown in the picture.

3 Rearrange the line by setting the battery as shown in the picture.

4 Close the battery cover.

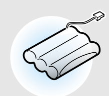

### How to use the battery

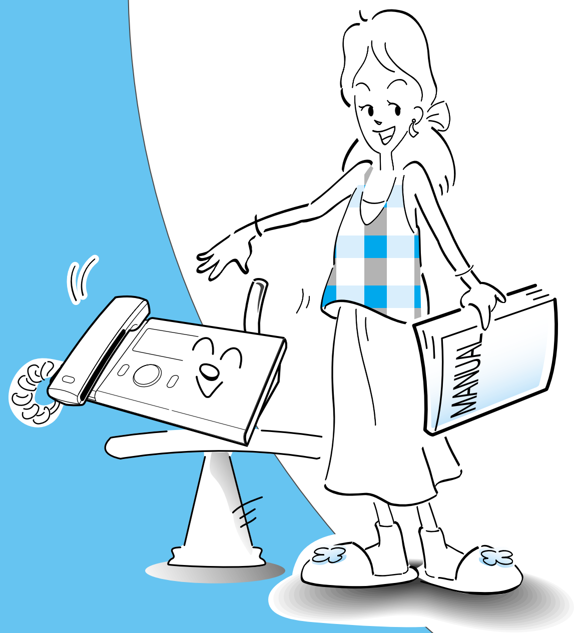

- Charge the battery for approximately 24 hours before using.
- Always remove the battery from the remote set, when you are not using it for an extended period.
- It is best to charge the battery until you see the ( ▮▮▮ ) sign on the screen.

### Battery life

- The battery life has a 6-month warranty after purchase.
- As time goes by, there will be a reduction in the battery's power. When battery's power capacity is reduced by half, purchase a new battery and replace it.
- Please contact your local Samsung Electronics Service Center on how to purchase and replace the battery.

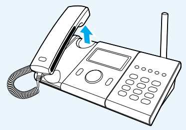

# Basic Features

- Making calls 13
- Answering calls 14
- Date / Time setting 15
- Using the intercom function 17
- Transferring calls 18
- Changing the ringing melody and adjusting the voice volume 20
- Morning call / alarm setting 22
- Using the phone directory 23

# Making Calls

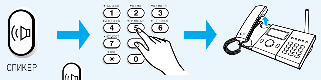

## Making a Call with the Base Set

### When using the base-handset

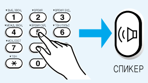

Pick up the base-handset and dial the number you want to call.

### When using the On Hook

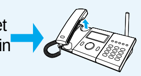

Press (СПИКЕР) button and dial the number you want to call.

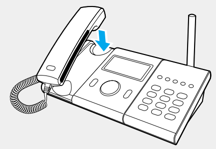

### When calling in standby mode

You can get a dial tone in 3 seconds.

### When hanging up the phone

Place the handset down on its position.

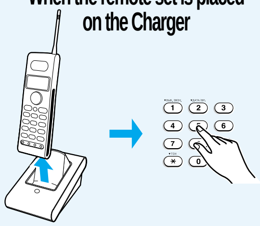

- You can switch from pulse to tone mode by pressing (▼ТОН *) button during dialing.
- If you have incorrectly dialed the number in standby mode, you can delete a digit by pressing (ГРОМК./СТЕРЕТЬ) button and then pick up the handset or press 'On Hook' button.

### What is "On Hook Dialing"?

➜ It is a very convenient feature. With it, you can first dial the number you want to call and then pick up the handset to talk to the caller after identifying his/her voice through the speaker. (NB. If you don't pick up the handset, the other side can't hear you.)

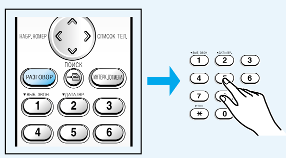

## Making a Call with the Remote Set

### When the remote set is placed on the Charger

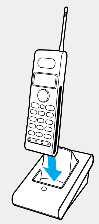

Pull out the remote set from the charger, press (РАЗГОВОР) button and dial the number you want to call.

### When the remote set is not placed on the Charger

Press (РАЗГОВОР) button and dial the number you want to call.

### When hanging up the phone

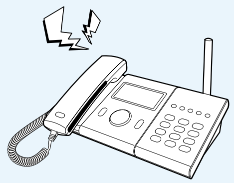

Place the remote set on the charger or pressing (РАЗГОВОР) button.

- You can switch from pulse to tone mode by pressing (▼ТОН *) button during dialing.
- You can dial the number before pressing (РАЗГОВОР) button.
- If you have incorrectly dialed the number in standby mode, you can delete a digit by pressing (СТЕРЕТЬ) button and then press (РАЗГОВОР) button.

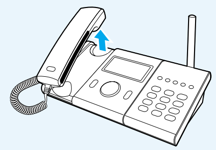

# Answering Calls

## Answering a Call with the Base Set

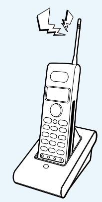

When the Phone Rings

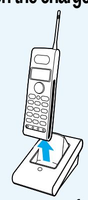

Pick up the handset to answer the call.

## Answering a Call with the Remote Set

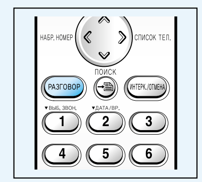

When the Phone Rings

### When the remote set is placed on the charger

Pull out the remote set from the charger and press (РАЗГОВОР) button to answer the call.

### When the remote set is not placed on the charger

press (РАЗГОВОР) button to answer the call.

# Date / Time Setting

- You need to setup the Date/Time feature in order to see the current time and to use the Morning Call/Alarm function.
- Only the hour and minute setting is available on the base set.

## Setting up the Base Set

1

ФУНКЦИИ/ПОДТВ.

2

▼ВРЕМЯ 2

3

Displaying

4

• Press 4 digits in the order of hour, and minute.

5

ФУНКЦИИ/ПОДТВ.

**You will hear a beep confirming the completion of the setting.**

## Setting up with the Remote Set

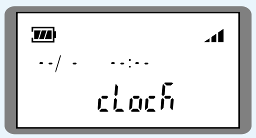

1

2

▼ДАТА/ВР. 2

3

Displaying

4

• Press 8 digits in the order of day, month, hour, and minute.

5

**You will hear a beep confirming the completion of the setting.**

Note: In the case of a power failure or if you have deliberately disconnected the power, the date and time will be erased. Therefore you will have to set it up once again.

# Using the Intercom Function

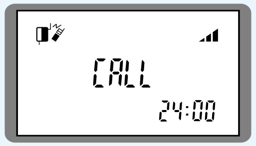

- Separating from external calls, you can use intercom function between the base set and the remote set. In this particular case the calls are not charged.

## Calling from [base set] to [remote set]

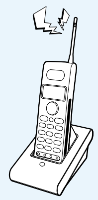

**1** Base Set

   bELL 1

4. ПОИСК / НАБР. НОМЕР / СПИСОК ТЕЛ. / ПОИСК
   - Press the search button and select the ringing melodies that you want (Up to 10 available)
   - You can select by pressing 1 button one after another.

5.

You will hear a beep confirming the completion of the setting.

Note ● "bELL OFF" – Silence.

## Adjusting the Ring Volume

- The volume can be adjusted by 2 levels, Low and High.
- The original seting is High.

Stand by

ГРОМК.

Press ГРОМК. button one after another.

- In doing so, you can switch the volume to high, or low.

## Adjusting the Voice Volume

- You can adjust the volume to 3 levels (High/Medium/Low).
- The original seting is Medium.

During a call After pressing РАЗГОВОР button

ГРОМК.

Press ГРОМК. button one after another.

- In doing so, you can switch the volume to high, medium or low.

# Morning Call / Alarm Setting

- First, set the current time (see page 15 for more details)
- You can only setup the morning call/alarm on the base set.
- When you set the morning call/alarm, it will give you a wakeup call at a certain time.

## Setting the Time on the Base Set

1. ФУНКЦИИ/ПОДТВ.

2. ▾ВРЕМЯ БУД. 3

3. Displaying
   06:00

4. Time Setting
   - Press four digits in the order to set up hours and minutes.

5. ФУНКЦИИ/ПОДТВ.

You will hear a beep confirming the completion of the setting.

Note
- When you set the Morning call/alarm, it will automatically be enabled.

Wait!
- When you set up your wakeup time, the morning call/alarm is enabled. It will ring for up to 10 minutes.
- When the morning call/alarm is ringing, if you want to turn it off, simply press any button on the base set or lift up and then put down the handset back on to the cradle. Or press the call button on the remote set.

## Setting or Canceling the Morning Call / Alarm

- When you cancel and reset the morning call/alarm, the time that was last set beforehand will be effective.

БУДИЛЬНИК

In standby mode, you can toggle between setting and canceling using БУДИЛЬНИК button. When it is active, the screen of the phone displays an icon.

06:00

When the Morning call/alarm is enabled

Basic features

# Using the Phone Directory

- You can register up to 20 phone numbers on the base set.

## Registering a Phone Number (Using the Base Set)

**1** ФУНКЦИИ/ПОДТВ.

**2** ПОИСК / НАБР. НОМЕР / СПИСОК ТЕЛ. / ПОИСК
- Press СПИСОК ТЕЛ. button.

**3** Enter the phone number.

1 2 3 / 4 5 6 / 7 8 9 / * 0 #

(You can use up to 20 digits)

**4** ФУНКЦИИ/ПОДТВ.

**You will hear a beep confirming the completion of the setting.**

**Note**

**Using a phone directory with an installed switchboard or an internal phone line.**

In case of an installed switchboard or an internal phone, you can usually make external calls by using an external switch number (mostly 9). When registering the phone number, enter a pause between the external switch number and the phone number.

**Example** : To register 012-345-6789

9 → СБРОС/ПАУЗА → 0 1 2 3 4 5 6 7 8 9

## Searching the Phone Directory (Using the Base Set)

**1** ПОИСК / НАБР. НОМЕР / СПИСОК ТЕЛ. / ПОИСК
- Press СПИСОК ТЕЛ. button.

**2** ПОИСК / НАБР. НОМЕР / СПИСОК ТЕЛ. / ПОИСК
- Press ПОИСК button to look up any of the numbers that have been previously saved.

**3** Displaying

1234567890
01

- When the searching phone number has more than 12 digits, you can use НАБР. НОМЕР / СПИСОК ТЕЛ. button to identify the rest of the number that is not displayed.

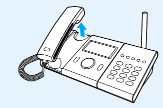

## Making a Call from the Phone Directory (Using the Base Set)

**1** ПОИСК / НАБР. НОМЕР / СПИСОК ТЕЛ. / ПОИСК
- Press СПИСОК ТЕЛ. button.

3. tonE 24:00
   - PULSE : Pulse Dial
   - tonE : Tone Dial
4. ПОИСК — Press ПОИСК button and select the phone number you want
5. ФУНКЦИИ/ПОДТВ.

You will hear a beep confirming the completion of the setting.

Note

● The pulse dial is originally set. ▼:Pulse Dial, ▲:Tone Dial
● You can change the dial type only from the base set.

Convenient features

When there is a lot of noise, or when the call has a bad connection, you can use this function to reduce irrelevant noise by changing channels.

## Noise Reduction (Using a Remote Set)

1. When there is a lot of noise

2. Press Ⓘ/КАНАЛ button

· If the noise is not reduced, press the button several times.

This prevents a remote set from being disconnected from the base set.

## Out of Range warning with the Remote Set

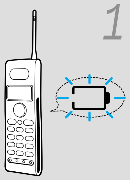

1. When the remote set gets too far from the Base set

2. You will see a (antenna icon) on the top of the screen with a warning sound. When this occurs, move closer toward the base set.

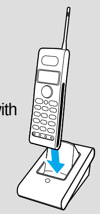

When the battery voltage of the remote set falls below a certain level, a warning is given.

## Low Voltage Warning in Remote Set

1. When a battery needs recharging

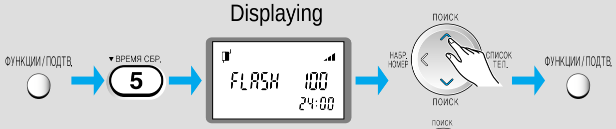

2. You will hear a warning sound with these (battery icon) marks blinking. When this occurs, immediately recharge your remote set.

You can adjust the flash time.

## Adjusting the Flash Time

1 2 3 Displaying 4 5

You will hear a beep confirming the completion of the setting.

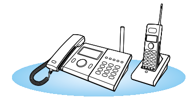

• Press (ПОИСК ^) button to select the flash time you want.

**Note**

● You can select the range of the flash time from 0.1 to 1.0 seconds.

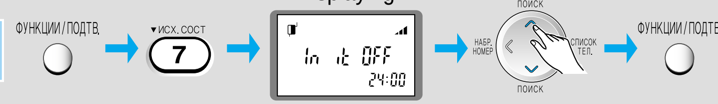

This is to initialize the phone to its original condition.

## Initializing the Phone (Base Set / Remote Set)

**Base Set in standby mode**

1 2 3 Displaying 4 5

All functions will be initialized with a completion sound.

• In it On : Initialization set
• In it OFF : Initialization cancelled

Press (ПОИСК ^) button on the top.

**Remote Set in standby mode**

(ТОН ∗) (0) (#)

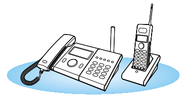

Press the three buttons at the same time and hold for at least 3 seconds.

All functions will be initialized with a completion sound.

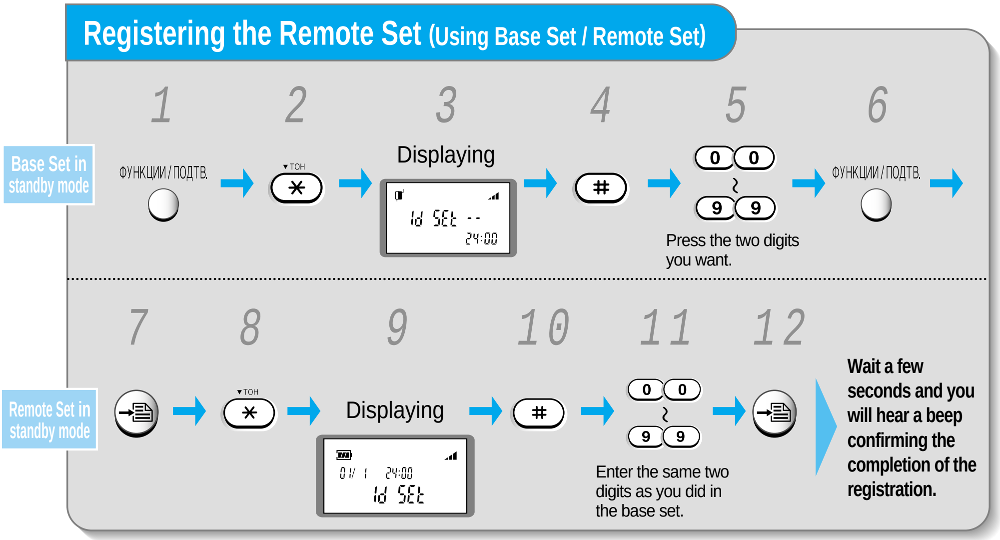

## Default or Initial State of the Phone

| Base Set | Remote Set |

# Troubleshooting

## The phone does not work at all.

- Is the phone correctly installed? (Refer to page 9)
- Is the power correctly connected to the appropriate voltage? (Refer to page 9)
- Check if the batteries are correctly inserted to the remote set. (Refer to page 10)
- Check if the batteries are adequately charged. (Refer to page 10)
- Check if the power is on. (Refer to page 9)

## I cannot hear the tone when I press button.

- Check if the phone is correctly connected. (Refer to page 9)
- Check if the power is correctly connected. (Refer to page 9)

## The morning call/alarm does not work.

- Check if the current time is accurately set. (Refer to page 15)
- Check if the morning call time is set. (Refer to page 22)
- Check if the morning call/alarm function is set. (Refer to page 22)

## Internal or transferring calls are not working.

- Check if you have installed the phone correctly. (Refer to page 9)
- Try re-registering the remote set to the base set. (Refer to page 33)

## The phone does not ring in the base set or the remote set.

- Check if the batteries are correctly inserted. (Refer to page 10)
- Check if the batteries are adequately charged. (Refer to page 10)
- Check if the power of the remote set is on. (Refer to page 9)
- Try re-registering the remote set to the base set. (Refer to page 33)
- Check if the BELL OFF is selected. (Refer to page 21)

## I cannot recharge the remote set.

- Check if the charging connector is clean.
- If the charging connector is not clean, use a cotton tip or an eraser to wipe it clean. (Refer to page 37)
- Check if the power voltage is appropriate. (Refer to page 9)
- If you have cleaned the charging connector but it still does not work, then please contact your local service center and purchase new batteries. (Refer to page 10)

## I hear many noises while using the remote set.

- Press Ф/КАНАЛ button to reduce the noise. (Refer to page 31)
- Check if the distance is too far from the base set. (Refer to page 31)
- Try installing the base set at a different location.

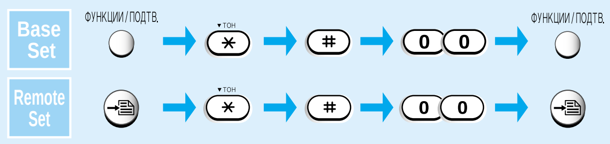

## I hear beeping warning sounds in the remote set.

- Check if the base set is currently in use. Try again after the call in the base set has been hung up.
- Check to see if you are too far away from the base set. If yes, move closer toward the base set. (Refer to page 31)
- If you see the mark on the screen, hang up the phone and adequately charge your remote set. (Refer to page 31)

**Note**

- When there is a problem with radio communication between the base set and the remote set, do the following, and if it still will not work, then please contact your local Samsung Electronics Service Center.

- Follow instructions in the order.

※ See page 33 for registering a remote set

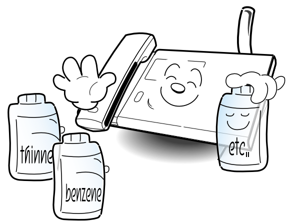

Reference

# How to Clean

### When cleaning the outer side of the phone.

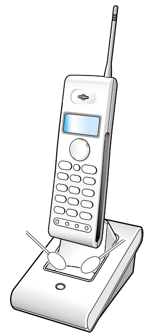

Apply neutral washer liquid and wipe it with a cloth.

● Do not use benzene, thinner, etc.

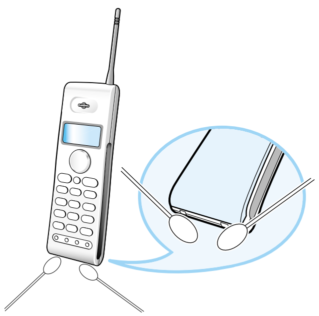

### When cleaning charger

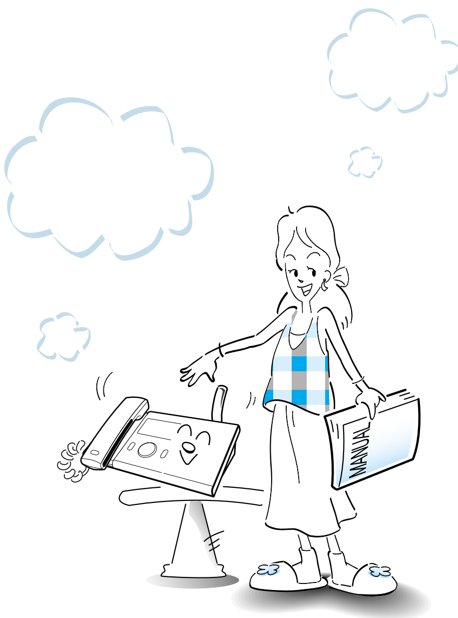

Frequently wipe the charging connector.

### When cleaning remote set

Frequently wipe the charging connector.

# Product Specifications

**Model name : SP- C700R**

| Classification | Unit | Remote Set | Base Set | Charger |
|---|---|---|---|---|
| Power | V | DC 3.6 V, 450 mAh | DC 12 V, 500 mA | DC 12 V, 500 mA |
| | | Rechargeable battery | for 220V | |
| Output | mW | Below 10 | | |
| Frequency | kHz | Below 16 | | |
| Receiving sensitivity | µV | Below 2 | | |
| Usage time for remote set | Hours | Stand by: over 20, Call: over 3 | | |
| Operating temperature | ℃ | -10 ~ +40 | | |
| Operating humidity | % | 5 ~ 90 | | |
| Weight | g | 138 | 513 | 122 |
| Dimension (length*width*height) | mm | 214×46×23 | 233×130×57 | 130×76×75 |

ИНФОРМАЦИЯ О СЕРТИФИКАЦИИ ПРОДУКЦИИ
Абонентская радиостанция носимая стандарта 900 mHz
SP-C700R производства фирмы Samsung Electronics Co., Ltd.
сертифицирована органом по сертификации
"Ростест-Москва"
